Espelette Chili Vodka

Distillers Comments:

While traditionally found in France, our espelette chilis are soured locally in Northern California. We only use the freshest chilis to make this ultra-premium vodka that's spicy and sweet with just the right amount of heat. Enjoy it in a bloody mary, mule or however you fancy a little heat.

Distillation and Process:

Distilled in an 800 liter alembic style copper still imported from Bordeaux, France. The still is custom made to allow for the unique process of only one distillation run to removes harshness and aggressivity from the spirit to create a supple, balanced and round spirit with no loss of aromatic flavor.

Espelette chilis are macerated for 36 hours before distillation.

Distilled From Wheat

40% Alc by Vol

(80 Proof)

Case: 750ml x 6
